INDEPENDENT AUDITORS' REVIEW REPORT

The Board of Directors and Shareholders
China Steel Chemical Corporation

Introduction

We have reviewed the accompanying consolidated balance sheets of China Steel Chemical Corporation (the Corporation) and its subsidiaries as of June 30, 2026 and 2025, the consolidated statements of comprehensive income for the three months ended June 30, 2026 and 2025 and for the six months ended June 30, 2026 and 2025, and the consolidated statements of changes in equity and cash flows for the six months ended June 30, 2026 and 2025, and the related notes to the consolidated financial statements, including a summary of significant accounting policies (collectively referred to as the consolidated financial statements). Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission (FSC) of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

Scope of Review

We conducted our reviews in accordance with the Standards on Review Engagements of the Republic of China 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that caused us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Corporation and its subsidiaries as of June 30, 2026 and 2025, and of its consolidated financial performance for the three months ended June 30, 2026 and 2025 and six months ended June 30, 2026 and 2025, and its consolidated cash flows for the six months ended June 30, 2026 and 2025 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard NO.34 "Interim Financial Reporting" endorsed and issued into effect by the FSC.

The engagement partners on the reviews result in this independent auditor's review report are Chao Chun Wang and Hung Ju Liao.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Statement of compliance

The consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and IAS 34 “Interim Financial Reporting” as endorsed and issued into effect by the FSC. The consolidated financial statements do not present full disclosures required for a complete set of IFRSs annual financial statements.

b. Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for financial instruments which are measured at fair value and net defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of plan assets.

The fair value measurements, which are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and based on the significance of the inputs to the fair value measurement in its entirety, are described as follows:

- 1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
- 2) Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- 3) Level 3 inputs are unobservable inputs for an asset or liability.

c. Basis of consolidation

Refer to Note 13, Table 5 and Table 6 for the detail information of subsidiaries (including the percentage of ownership and main business).

Except for the following, refer to the summary of significant accounting policy and basis of preparation in the consolidated financial statements for the year ended December 31, 2025.

2) Income tax expense

Income tax expense represents the sum of the tax currently payable and deferred tax. Interim period income taxes are assessed on an annual basis and calculated by applying to an interim period's pre-tax income the tax rate that would be applicable to expected total annual earnings.

5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The average credit period of sales of goods was 30-90 days. No interest is charged on accounts receivables. The Corporation and its subsidiaries adopted a policy of only dealing with entities that are rated the equivalent of investment grade or higher and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. In order to minimize credit risk, management of the Corporation and its subsidiaries has delegated a team responsible for determining credit limits, credit

approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Corporation and its subsidiaries review the recoverable amount of each individual trade debt at the end of the balance sheet date to ensure that adequate allowance is made for possible uncollectible amounts. In this regard, the management believes that the Corporation and its subsidiaries' credit risk was significantly reduced.

The expected credit losses on notes and accounts receivable are estimated using a provision matrix prepared by reference to past default experience of the customer and an analysis of the customer's current financial position, adjusted for general economic conditions of the industry in which the customers operates, as well as an assessment of industry outlook at the reporting date. As the Corporation and its subsidiaries' historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished according to the Corporation and its subsidiaries' different customer base. As of June 30, 2026, December 31, 2025 and June 30, 2025, the Corporation and its subsidiaries' have no allowance for impairment.

Note: It was mainly derived from the cash and cash equivalents, receivables, other receivables, accounts payables, and other payables denominated in foreign currency without cash flow hedging arranged at each balance sheet date by the Corporation and its subsidiaries.

Changes in the exchange rate sensitivity of the Corporation and its subsidiaries for the six months ended June 30, 2026 and 2025 were mainly due to the variation of USD and RMB assets. The management believes that the sensitivity analysis is not representative of the inherent risk of exchange rate since the foreign currency risk exposure at balance sheet date does not reflect the interim risk exposure; also, the sales denominated in USD and RMB will be affected by customer orders and shipping schedule.

Hedge accounting

The Corporation and its subsidiaries mitigate the exchange rate risk arising from capital expenditures on foreign procurement projects by purchasing foreign currency deposits. These deposits are designated as hedges for the foreign currency positions of the specified procurement projects and are designated as cash flow hedges.

The following tables summarize the information relating to the hedges of foreign currency risk:

December 31, 2025

Hedging Instrument /Hedged Item	Line Item in Balance Sheet	Carrying Amount Asset
Cash flow hedge		
Foreign currency time deposits/Forecast purchases	Financial assets for hedging - current	\$ -

June 30, 2025

Hedging Instrument /Hedged Item	Line Item in Balance Sheet	Carrying Amount Asset

Foreign currency time deposits/Forecast purchases	Financial assets for hedging - current	<u>\$ 4,851</u>

Hedging Instrument / Hedged Item	Change in Fair Value of Hedging Instruments Used for Calculating Hedge Ineffectiveness	Change in Fair Value of Hedged Items Used for Calculating Hedge Ineffectiveness	Balance in Other Equity Continuing Hedges

Foreign currency time deposits/Forecast purchases	<u>\$ 783</u>	<u>\$ (783)</u>	<u>\$ (321)</u>

b) Interest rate risk

The carrying amounts of the Corporation and its subsidiaries financial assets and financial liabilities with exposure to interest rates at the balance sheet date were as follows:

	June 30, 2026	December 31, 2025	June 30, 2025
Fair value interest rate risk			
Financial liabilities	\$ 724,305	\$ 588,898	\$ 602,712
Cash flow interest rate risk			
Financial assets	787,153	1,087,957	705,199
Financial liabilities	1,000,000	1,000,000	900,000

Because of held financial liabilities, if interest rates had been 1% higher/lower and all other variables were constant, the Corporation and its subsidiaries' per-tax profit for the six months ended June 30, 2026 and 2025 would have decreased/increased by NT\$5,000 thousand and NT\$4,500 thousand, respectively.

c) Other price risk

The Corporation and its subsidiaries are exposed to equity price risk through their investments in listed shares and mutual funds; the risk is managed by maintaining a portfolio of investments with different risks. The equity price risk of the Corporation and its subsidiaries was primarily concentrated on the share and fund market in Taiwan and it was evaluated by the closing price of the equity securities and net value of the mutual funds on a monthly basis.

Sensitivity analysis

The sensitivity analysis measures the exposure to equity price risk at the balance sheet date. Considering the market price fluctuation of the Corporation and its subsidiaries' main investment targets, the fluctuation of 6% was used for the sensitivity analysis of equity securities.

If equity prices had been 6% higher/lower for the six months ended June 30, 2026 and 2025, respectively, the pre-tax profit for the six months ended June 30, 2026 and 2025 would have been higher/lower by NT\$28,001 thousand and NT\$18,431 thousand, respectively, as a result of the fair value changes of financial assets at FVTPL, and the pre-tax other comprehensive income for the six months ended June 30, 2026 and 2025 would have been higher/lower by NT\$19,035 thousand and NT\$15,916 thousand, respectively, as a result of the changes in fair value of FVTOCI, respectively.

2) Credit risk

Credit risk refers to the risk that counterparty will default resulting in financial loss to the Corporation and its subsidiaries. The Corporation and its subsidiaries' maximum exposure to credit risk is the carrying amount of accounts receivables from customers could not be recovered. The main customers of the Corporation and its subsidiaries were creditworthy and continuously to evaluate the customers' financial condition. If necessary, the customers will be requested to provide collaterals or to pay cash for each transaction. The business department also understands the credit status of customers through industry reports. The credit risk was immaterial to the Corporation and its subsidiaries.

The Corporation and its subsidiaries' concentrations of credit risk in total of notes and accounts receivable were as follows:

	June 30, 2026	December 31, 2025	June 30, 2025
Customer A	\$ 103,933	\$ 73,617	\$ 67,749
Customer B	55,267	37,323	36,414
Customer C	39,024	28,877	21,107
Customer D	<u>-</u>	<u>-</u>	<u>43,566</u>
	<u>\$ 198,224</u>	<u>\$ 139,817</u>	<u>\$ 168,836</u>

3) Liquidity risk

The Corporation and its subsidiaries have supported business operation through management and by maintaining sufficient cash and cash equivalents or easily realizable financial instruments. In addition, the Corporation and its subsidiaries signed line of credit contracts with financial institutions for a ready source of funds to support the business operation of the Corporation and its subsidiaries.

The Corporation and its subsidiaries rely on bank borrowings as a significant source of liquidity. As of June 30, 2026, December 31, 2025 and June 30, 2025, the Corporation and its subsidiaries had available unutilized short-term and long-term bank loan facilities in the amounts to NT\$5.7 billion, NT\$5.5 billion and NT\$6.2 billion, respectively.
